Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

I think that the airtime is already high. A lot of times it is hard to come up with the money to redeem airtime anyway. I use mine mainly for when I am on the road in case that I might have car trouble. I can't afford the regular wireless cellphones and wouldn't get preapproved because of a bankruptcy anyway. Please leave them at the cost they are now. Thank You Linda

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,
